🎨 EASY & FUN LEARNING

Computer & AI Design Course

2 Months Easy Practical Course for Class 5th, 6th & 7th Students

⭐ **What Kids Will Learn:** Poster Making in Canva • Simple AI Photo Magic • Drawing App Screens in Figma • Fun Projects

■ CLASS 5th — Basic Canvas And Basic Designing

2 Months Duration

Kids will learn how to make colorful posters, greeting cards, and funny story pictures using Canva and AI tools. They will also draw simple phone screens on Figma!

- 🎨 Canva Posters
- 🤖 AI Picture Magic
- 📱 Simple Phone Screen
- 📚 Storybook Design

■ CLASS 6th — Understanding Apps And Graphic Designing

2 Months Duration

Students will learn color matching, font styling, and how mobile apps work. They will use AI to generate creative images and design connected screens for a smartphone app.

- 🎯 Colors & Font Matching
- 🖼️ AI Visual Art
- 📲 Clickable App Layout
- 🎓 School App Project

■ CLASS 7th — Full App Design & Understand AI

2 Months Duration

Students will build full working designs for mobile apps. They will learn how to make reusable buttons, interactive screens, and use smart AI tools to create complete digital projects.

- ❖ Smart Buttons & Components
- 🔗 Working App Screens
- 🤖 AI Creative Tools
- 🛒 Shopping App Project

🏆 **Final Result:** Every student builds confidence, creates 3 real projects, and gets a Certificate!

Step-by-Step 2 Months Class Plan

Month 1: Learning Tools & AI Magic | Month 2: Making Mobile Apps & Projects

🌱 CLASS 5th — Simple & Easy Syllabus

Month 1: Canva & AI Photo Fun

- **Canva Basics:** How to make Birthday Cards, School Posters, and Wallpapers.
- **AI Photo Generator:** Type simple words to create cartoon and story photos.
- **Colors & Shapes:** How to pick nice colors and combine circles, squares & stars.
- **Text & Fonts:** Adding big bold titles and clean handwriting styles.

Month 2: Figma & Mobile Screen Fun

- **Figma Tool Intro:** Learning basic tools, shapes, draw boxes, and icons.
- **App Screen Design:** Drawing colorful buttons, profile pictures, and main pages.
- **My First Project:** Make a complete 3-page Cartoon Story App or Game Screen!
- **Presentation:** Show your final design to friends and teachers.

💡 CLASS 6th — Simple & Easy Syllabus

Month 1: Graphics & AI Creative Tools

- **How Apps Work:** Understanding home screen, menu bar, and back buttons.
- **Canva Magic Tools:** Designing cool social media banners and presentation slides.
- **AI Graphics:** Making custom logos, stickers, and background images with AI.
- **Design Rules:** How to keep clean space so text looks easy to read.

Month 2: Figma App Making & Links

- **Figma Layouts:** Aligning boxes, adding icons, and arranging picture frames.
- **Clickable Screens:** Link Screen A to Screen B so buttons actually work!
- **Main Project:** Design a complete Quiz App or School Learning App.
- **Showcase:** Play your working app on mobile view for everyone.

⚡ CLASS 7th — Simple & Easy Syllabus

Month 1: Advanced Design & AI Tools

- **Smart Figma Components:** Create one button and use it everywhere easily.
- **AI Design Assistant:** Using AI to write story text, app ideas, and topic outlines.
- **Logo & Color Theme:** Creating custom theme colors and icons for an app brand.
- **User Experience (UX):** How to make apps simple so anyone can use them without help.

Month 2: Full App Building

- **Interactive App Flow:** Smooth pop-ups, slide animation, and working search bars.
- **Real App Project:** Design a full E-commerce / Online Shopping App.
- **Portfolio Creation:** Put all Month 1 & Month 2 work into a clean presentation.
- **Graduation Showcase:** Final Demo Day with parents and school certificate!

🎉 **Certification:** Student Certificate, Project Portfolio PDF, and Parent Showcase Day!
